EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In line 6 on page 29 of the specification (the second line of the original abstract), replace "that stores a cache" with --that includes a cache--.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 34-37, the prior art of record has failed to teach, either individually, or in combination, the claimed subject matter wherein:

- a) the claimed data structure is not a container for data, but instead is an organization of data that is understood by application software. For instance, the claimed data structure may be an LRU queue or a hash list, but may not be a container for data, such as main memory. See the first full paragraph of applicant's arguments on page 17 of the reply filed on January 3, 2006.
- b) the claimed set of storage devices is separate from the claimed processor circuit board (i.e., the set of storage devices may not be a part of the processor). See the second full paragraph of applicant's arguments on page 17 of the reply filed on January 3, 2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
